Guide for filling out the PID (Project Information Document) for HTML5 solutions in Podio:

Fields to fill out and to consider*:

Fields in the PID	Explanation
Please shift status here when you are happy with all delivered materials	When all the below mentioned fields have been completed please shift status to: Now I'm done
Please list a username/password or subscription number for test of access	For valid testing purposes at Visiolink
Key Color for HTML5 Desktop, HEX	Please choose a key color of your liking and type in the HEX color code. This color will be used different places in the menu pane to the right of the solution and in XML Article view if this feature is activated
Logo for HTML5 Desktop. Max W300 px X H200 px, .png	This logo will appear in the HTML5 solutions background in the upper left corner. We recommend transparent background for this logo
Theme	The default theme is "Light" however you can choose to have a dark theme. Please consider which theme you would like and mark it. The theme is the solutions background appearance.
Logo for HTML5 Desktop Splash. Max W300 px X H200 px, .png	This logo will appear before the paper is shown in the HTML5 solution. It is the graphic shown while the paper is loading. We recommend transparent background for this logo
Should readers be allowed to print pages from your publication?	Please consider if it should be possible for the reader to print a number of pages from the paper. If this is allowed please specify how many pages in the comment field to the right in the PID
Should readers be allowed to save your publication as a PDF?	Please consider if it should be possible for the reader to download the whole paper onto their computer

*All other fields in the PID that are not mentioned here is for Visiolink purposes only.
